

Introduced in House (date goes here)

115th CONGRESS  
Nth Session

## H. R. XXX

To assure that no child goes hungry; no person suffers needlessly.

---

### IN THE SENATE AND IN THE HOUSE OF REPRESENTATIVES Month Day, 2017

Mr <Senator Name Here> , and Mr. Glen of Florida (for himself and the People of the United States) introduced the following bill; which was referred to by the PEOPLE,

---

## A BILL

to create a modern structure of existence. A structure that ends hunger, ends homelessness, promotes self expression, stops needless suffering and encourages peace. No person should go hungry or suffer needlessly.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. Short title.

This Act may be cited as the “ The *Millennial Modernization Act* ”.

#### SEC. 2. Overriding purpose

(a) The *Millennial Modernization Act* contains resolutions and imposes changes needed to address the side effect of advances in technology and society. With automation and robotics, mankind has entered a new era of existence. This created a new age of productivity, and a new period of social dynamics.

(b) No child should go hungry. No person should go hungry. No human being should be without basic needs like food, shelter, facilities for fundamental hygiene and care for health and mental balance. We live in an age, where resources are so plentiful, that this is easily satisfied. Every township should have a place where they feed; cloth; shelter; assist; and comfort anyone, just for the asking. This should be the responsibility of the local authorities. The resources to cover this will be allocated from current excess, addressed in Section 3.

(c) The *Millennial Modernization Act* reflects and incorporates a modern way of life, encapsulates progress in science and communication. It promotes human equality, advances avenues to improve quality of life, assures fair distribution of wealth, and secures better distribution of resources. Among many other things, it restores the path to self expression, wealth creation and freedom for all of man kind. Restores the sanctity of life, peace, and the idea of non interference. It is a new breed of the American dream, extended to this terrestrial planet. Because we share this globe with everyone, it starts right here. Without breaking any exiting laws and legislation, but reforming them to allow the true Global Dream.

### **SEC. 3. Resource Allocation for the fulfillment of the Millennial Modernization Act.**

(a) The resources for the fulfillment of the Millennial Modernization Act should be initially provided by Federal funding. At a later stage other sources of funding may contribute to the sustaining of the *Millennial Modernization Act*, such as Budget allocation by amending the Federal Budget, contributions from beneficiaries of automation, and voluntary contributions.

(b) As the *Millennial Modernization Act* takes effect, significant cost reductions will ensue due to the more balanced presence in society. Lowered crime rate, lessening medical burden will immediately create surplus at a larger scale.
